At our company, we specialize in event management, exhibition services, brand identity, production and audio visuals, and marketing services. Our comprehensive approach ensures your events are flawlessly executed, your brand stands out, and your marketing campaigns drive results.

1
Events Services

2
Exhibition Services

3
Branding Services

4
Production Services

5
PR & Marketing Services

Event and Conference Management

Process of planning, organizing, and executing various types of events, such as conferences, trade shows, concerts, and parties, to create memorable experiences and achieve specific objectives

Exhibition Service

Planning, organizing, and managing of exhibits and trade shows, including tasks such as stand design, logistics, and on-site support for exhibitors

Brand Identity & Branding Services

Visual, emotional, and cultural elements like logos, colors, and design that distinguish a brand from competitors, while brand services encompass the strategies and efforts to create, maintain, and enhance this identity

Production & Audio visuals Services

Creation, management, and execution of visual and audio content, including videos, films, live broadcasts, and animations, to engage audiences and communicate messages effectively

PR & Digital Marketing Services

Managing strategic communication to cultivate a positive public image, while digital marketing services focus on promoting and selling products through online channels like social media, search engines, and websites

Work Methodology

Our work methodology begins with the initial conceptualization phase and passes through several consecutive stages until the final phase. Therefore, we are committed to applying the highest standards at every stage of our work, with the aim of ensuring success and minimizing risks to the greatest extent possible.

Initiation Phase

where the project is defined, and its objectives are determined.

Planning Phase

where the project team is formed, and a project plan is developed.

Execution Phase

where the project is implemented according to the prepared plan.

Monitoring & Control Phase

where the project implementation is monitored and verified to ensure alignment with the work plan.

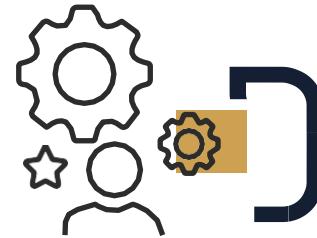

Closing Phase

Closing Phase: where the project is completed and evaluated.

Project Team

Our team is composed of experienced specialists who combine creativity and flexibility. Each member of the team is responsible, and we work with a spirit of collaboration. We also focus on localization to provide innovative solutions that meet our clients' needs.

Bachelor's degree
- **Experience and Skills**
 - Content development management
 - Ensuring content delivery is clear and effective

Project Quality Management

We adhere to quality standards throughout all phases of the project to ensure overall success and minimize risk.

Quality

10

Project Risk Management

This involves developing a comprehensive plan to identify all potential risks, assess their likelihood and impact, and effectively address them before the project begins. In this way risks and their impacts can be avoided, ultimately contributing to the success of the project.

In addition, the plan aims to assess potential risks and continuously monitor emerging risks throughout the lifecycle of the project, whether during construction or operation.

Before undertaking a project, we always conduct an analysis to determine the scope of the project and the quality of the tools used. We also comprehensively identify and address risks at every step and in every department, and ensure that alternative plans are in place in the event of undesirable events.

Our Strategic Partnerships

We at **MAHATAT** have meticulously planned our local, regional and global expansion. To ensure our success, we have stringently selected strategic partners and forged cooperation agreements with leading regional and global event/exhibition companies. This has positioned us to confidently meet our clients' aspirations with exceptional efficiency.

Eurodesign

Eurodesign, founded in 1997 in Reggio Emilia, has established itself as a leader in exhibition architecture through its creative and production capabilities, delivering customized, aesthetically-pleasing and functional solutions for clients. With its extensive experience, the company is the ideal partner to create innovative and high-quality exhibition spaces.

Scenotech

Scenotech deeply understands its customers' needs and has developed comprehensive event packages - for in-person, hybrid, or virtual formats - to efficiently meet their company's long-term guidelines and requirements. These tailored packages empower customers to seamlessly manage the event planning process with ease and confidence, putting them in full control.

Brand Options

Brand Options Group, founded in 2004, has grown from a small team into a 250-person powerhouse providing end-to-end specialty printing, custom joinery, and animation/display services from its advanced 70,000 sq ft facilities in Dubai and Riyadh. The company's skilled teams and cutting-edge fabrication capabilities have delivered over 30,000 successful projects for more than 1,200 clients.

E9 Production

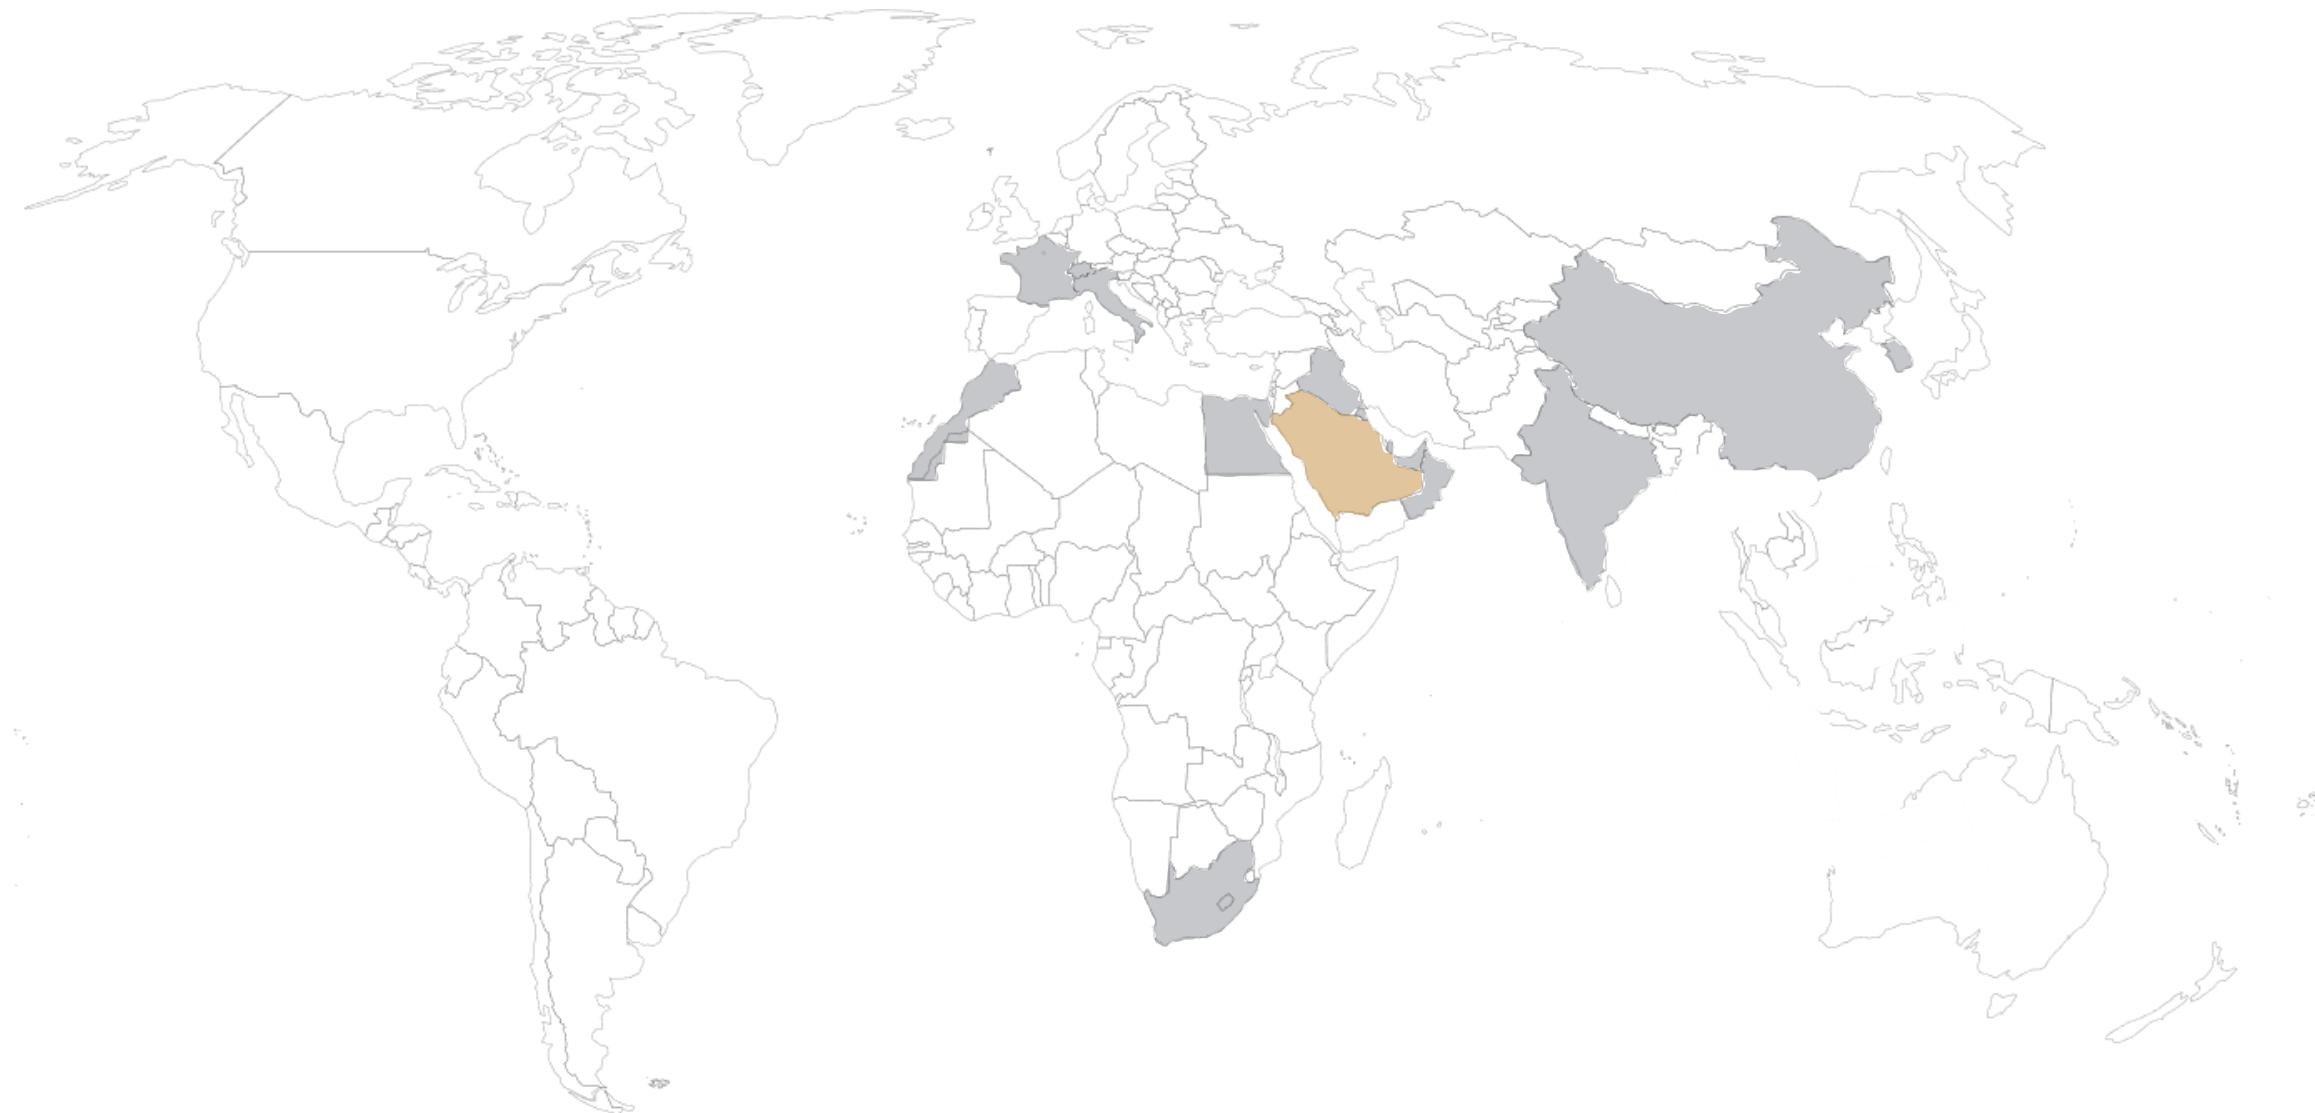

E9 Production offers expert, technology-driven solutions to address clients' communication, event production, and related needs, with a focus on enabling their success through meticulous project management and innovative, high-quality service delivered on-time and within budget.

Our Global Expansion

We are proud that our headquarters is strategically located in the Kingdom of Saudi Arabia. This central location enables us to effectively cover the Gulf region. In addition to our network of international partners, we are also capable of managing and executing our operations efficiently anywhere in the world.

Process Flow

Event Planning

- Collaborating with the client to define the event objectives, timeline, and requirements
- Developing a comprehensive event plan, including the work methodology and timeline

Resource Coordination

- Managing bookings, equipment, suppliers, and the workforce
- Overseeing all logistical arrangements and ensuring the availability of necessary resources

Execution Phase

- Supervising the onsite technical setup and managing operations
- Providing onsite management and addressing any emerging issues

On-site Support

- Ensuring the availability of the required personnel before and during the event
- Facilitating the dismantling and cleaning process after the event

Performance Review

- Analyzing performance indicators and identifying areas for improvement
- Providing a comprehensive report and recommendations for future events

Case Study

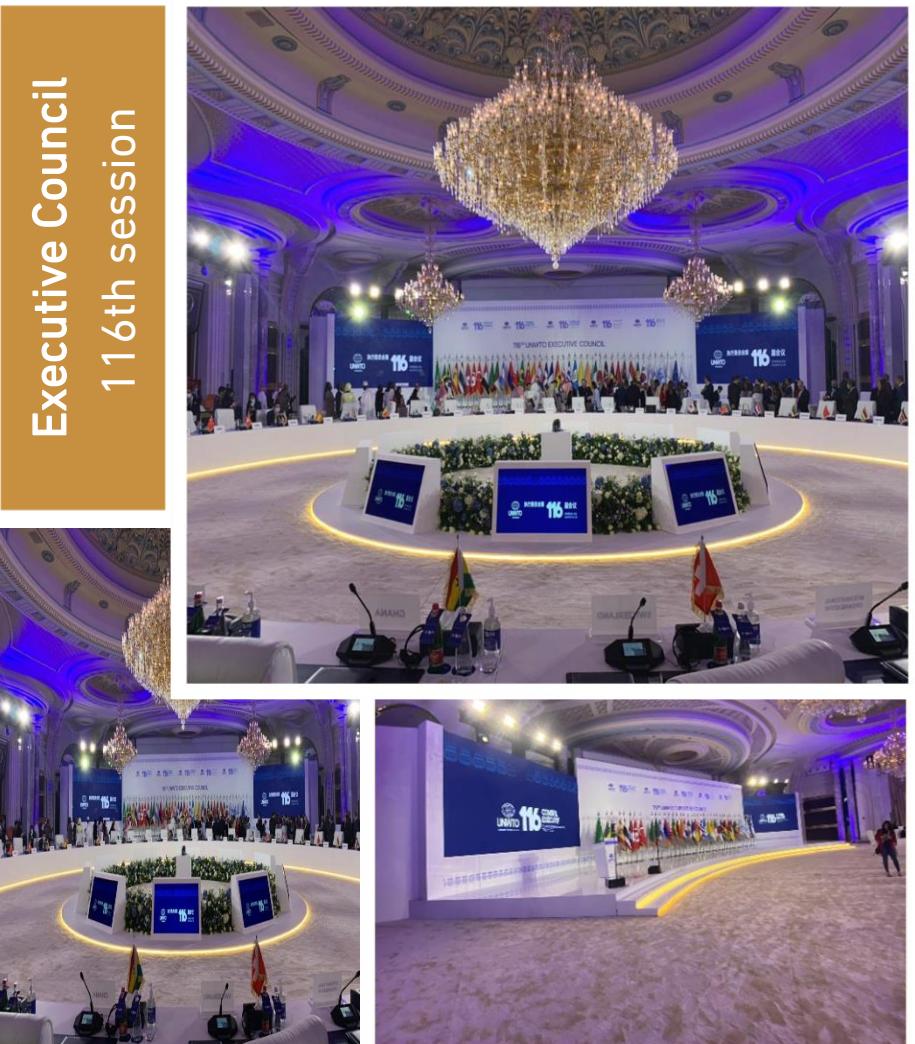

GGWCUP 2024

For the third time, the Saudi Sports for All Federation is bringing the Global Goals World Cup back to Saudi Arabia. The stage is set in Riyadh for a mix of cultures and a celebration of sportsmanship! Local Saudi Arabian teams will be joined by international teams from Norway, Denmark, Colombia, Nigeria, Kuwait, Qatar, Oman, Egypt, Bahrain in the 2024 Global Goals World Cup Finals.

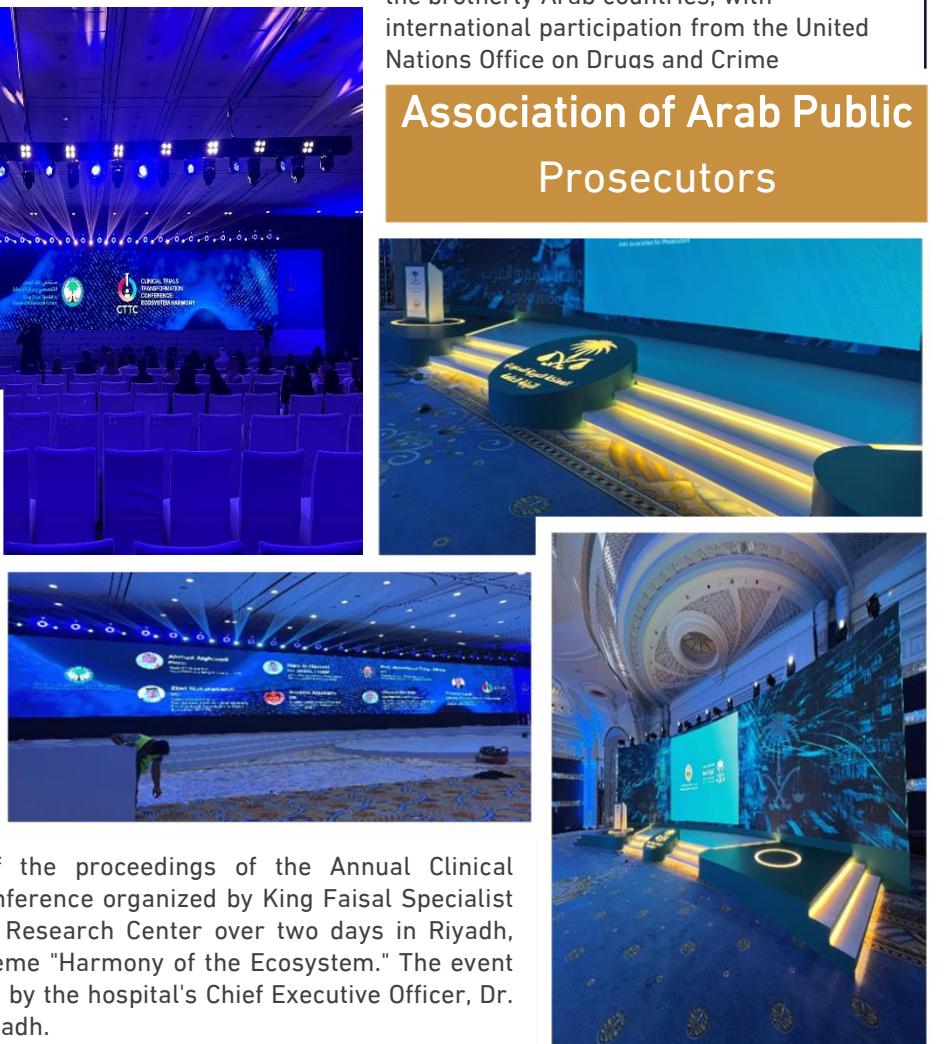

Executive Council 116th session

The 116th Session of the Executive Council of the World Tourism Organization was held in Jeddah over 3 days. Tourism ministers from various countries around the world, as well as representatives from organizations in over 35 countries, participated in the event.

Clinical Research Conference

A portion of the proceedings of the Annual Clinical Research Conference organized by King Faisal Specialist Hospital and Research Center over two days in Riyadh, under the theme "Harmony of the Ecosystem." The event was attended by the hospital's Chief Executive Officer, Dr. Majid Al-Fayyadh.

Second Annual Meeting of the Association of Arab Public Prosecutors, 2022 A segment of the conference proceedings, attended by several Honorable Public Prosecutors from the brotherly Arab countries, with international participation from the United Nations Office on Drugs and Crime

Association of Arab Public Prosecutors

Case Study

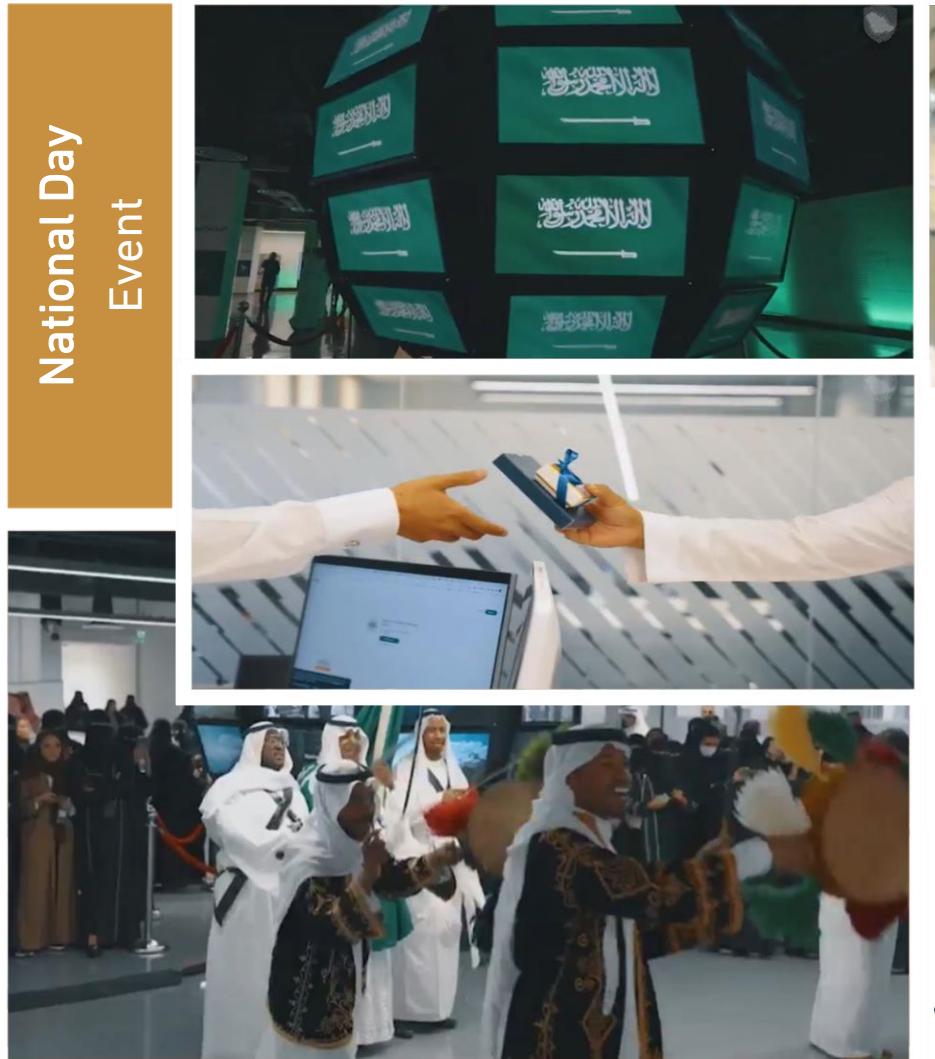

Summer Event

Preparing and implementing an internal event for the Authority's employees. A complete identity and decorations were created for the event, and a station of cold drinks and ice cream was provided. ([video Link](#))

Ideas were presented and implemented. The Saudi Ardha band, Saudi hospitality, decorations and publications, National Day Giveaways, and distinctive interactive screens were provided. ([video Link](#))

National Day Event

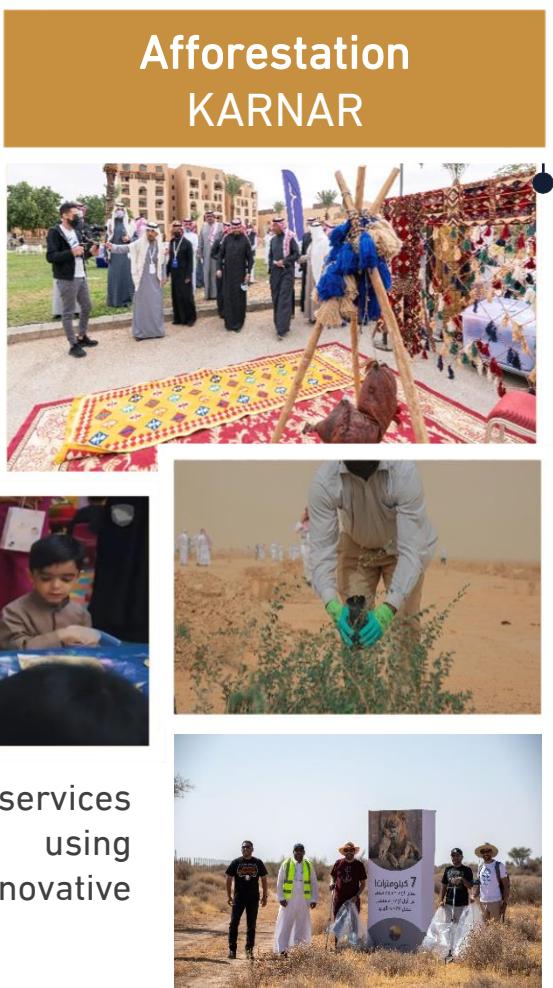

Employee's Kids Event

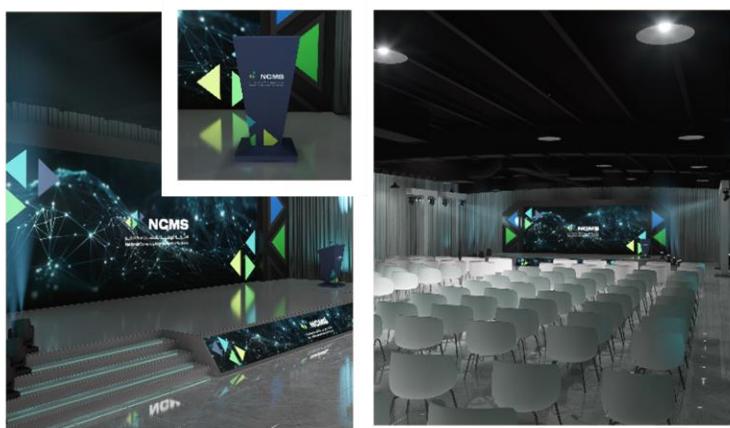

Educational and entertainment services were provided to children, using specialized methods and innovative means. ([video Link](#))

A planting event in the reserve with the participation of school students and volunteers.

Afforestation KARNAR

Case Study

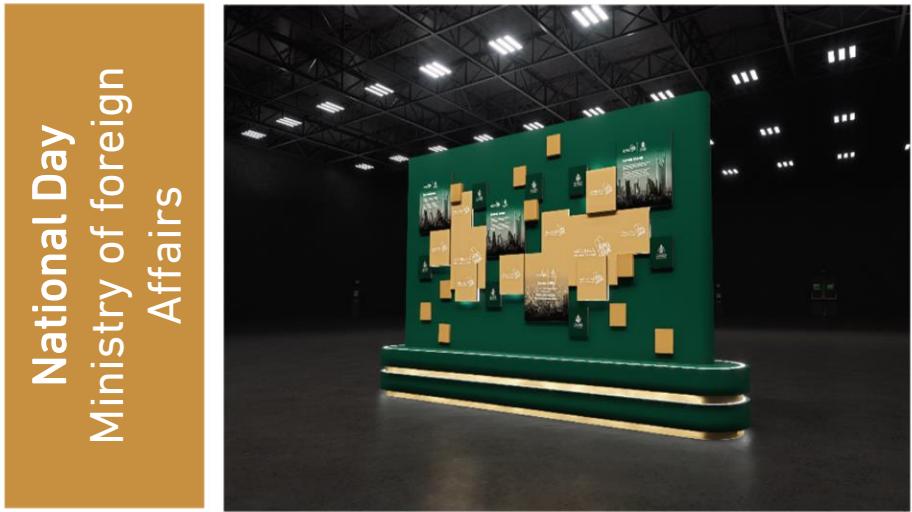

NCMS Event

Creating a one-of-a-kind design for the NCMS event while adhering to the client's branding. Stage design, podium, and light decorations were distributed throughout the area to create a more engaging event.

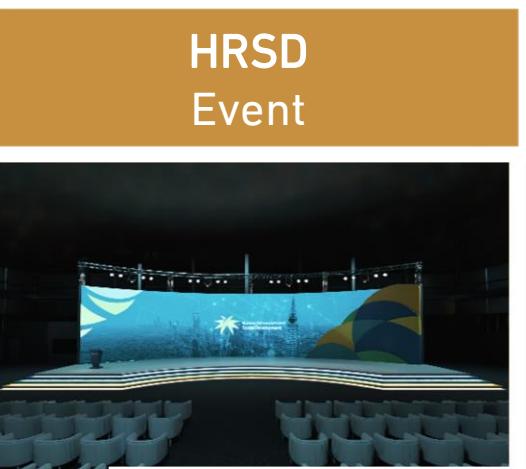

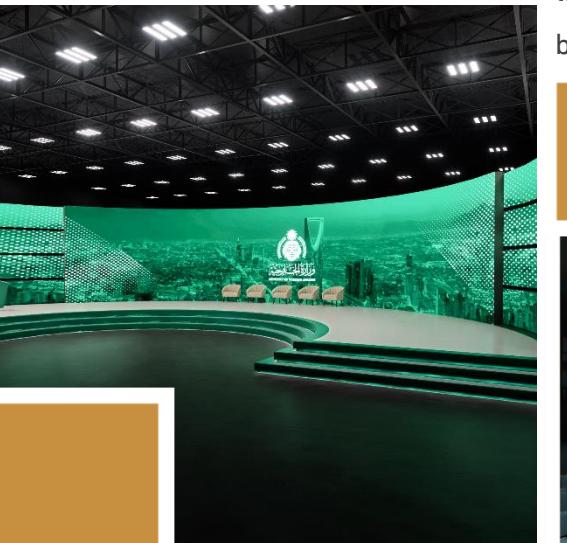

- We are tasked with creating decorative elements to distribute in various areas. These include an interactive rotating cube with a speaker, an infographic decoration, and event giveaways.

National Day Ministry of Foreign Affairs

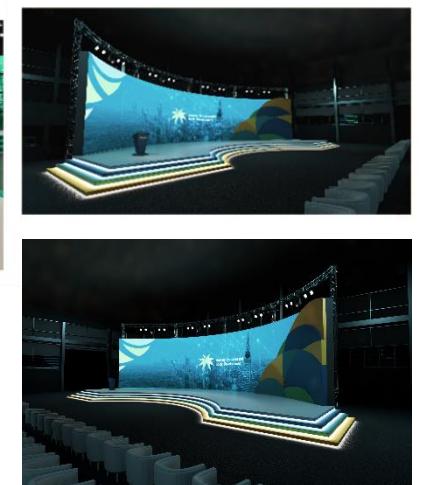

MOC Event

- A wide stage featuring a full LED screen backdrop and a branded podium, designed with simplicity and elegance.

HRSD Event

A vibrant stage design, showcasing a sophisticated and professional implementation. The CNC pattern was intricately reworked and integrated into the stage design, enhancing the client's brand presence and awareness.

Case Study

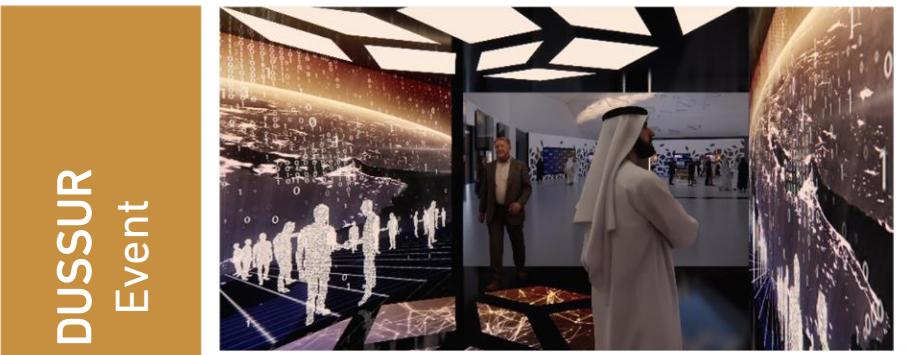

EID Event

A festive, vibrant, and joyful design was applied to these elements, commemorating Saudi Arabia's annual Eid celebration, which is observed each year with great significance.

A unique design was implemented for the DUSSUR event, featuring various elements at the venue. These included a digital tunnel, both physical and digital directional signage, and an information counter with a branded backdrop. Additionally, a photo session area was set up to capture lasting memories through physical photographs.

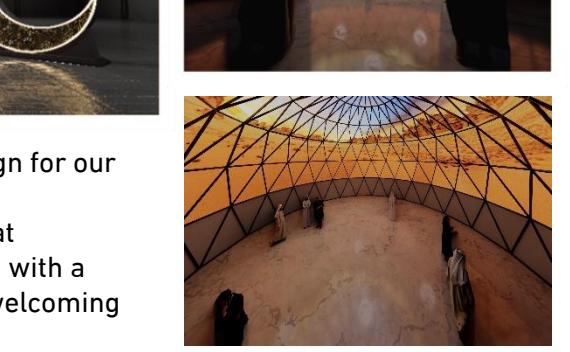

DUSSUR Event

A unique design was implemented for the DUSSUR event, featuring various elements at the venue. These included a digital tunnel, both physical and digital directional signage, and an information counter with a branded backdrop. Additionally, a photo session area was set up to capture lasting memories through physical photographs.

This design aimed to create a digital environment showcasing dynamic visuals. The dome primarily consisted of LED screens projecting synthetic environments to enhance the immersive experience.

ANTAME LED DOME Event

DAU Event

We also created a Ramadan-themed design for our client, DAU. The design features a tunnel showcasing several historical replicas that symbolize the essence of Ramadan, along with a branded entrance gate to create a more welcoming atmosphere.

Case Study

WRC Event

We have organized an event for the World Rowing Championship, which includes key components such as a main entrance gate, national flags display, a registration area, a VIP section, a stadium area, large viewing screens, and the starting point for the races.

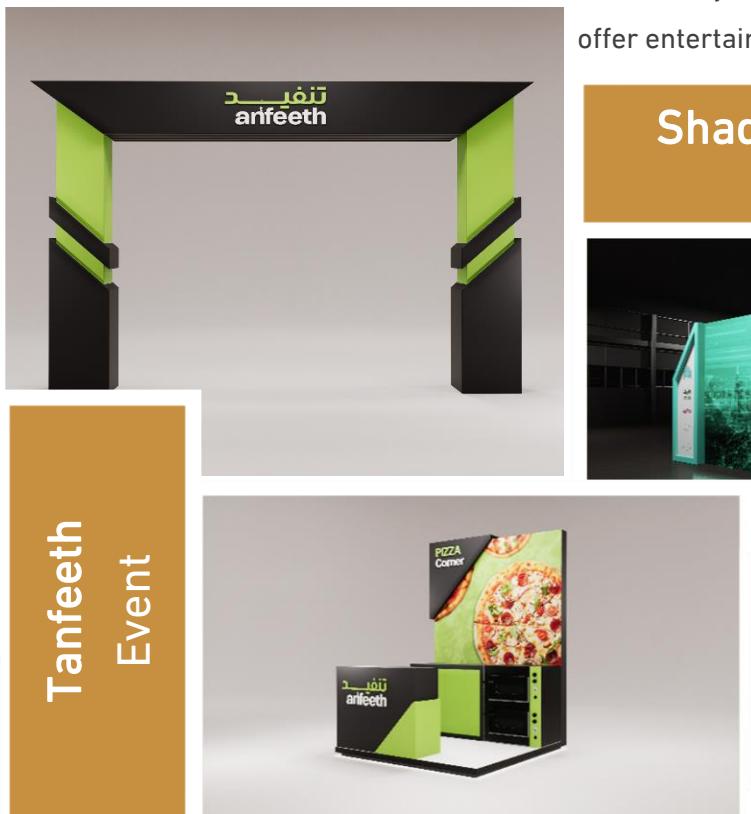

TBC Summer Event

Our primary task for the TBC Summer Vibes event was to design a clean and functional entry gate, an engaging interactive gaming area, and clear, effective signage to enhance the overall experience.

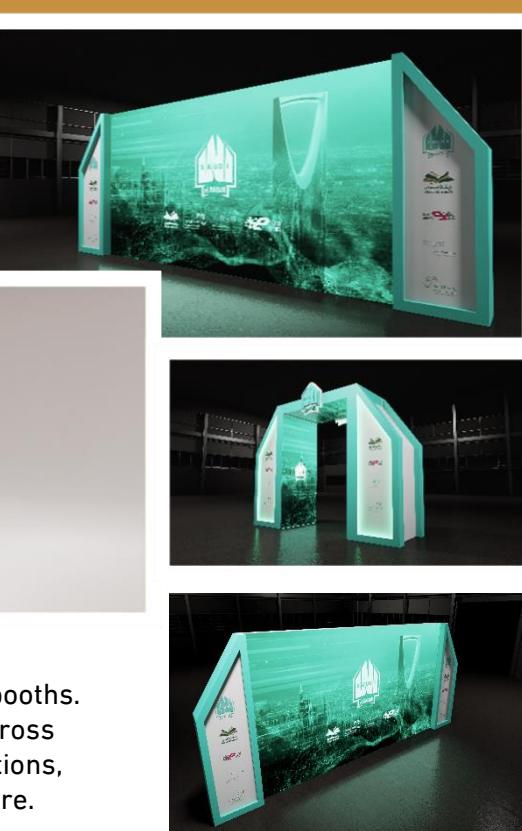

Tanfeeth Event

We designed the entrance gate for Tanfeeth Company, along with a series of activation booths. These booths will be strategically placed across various areas and will include different sections, such as a food section, play section, and more.

A digital entrance gate was provided for Sharaq University's exclusive event to create a welcoming atmosphere. Additionally, an LED screen was set up to offer entertainment and also serve as a

Sharaq University Event

Exhibition Services

Exhibitions Services

We are distinguished in exhibition management and design services, providing exceptional results. With extensive experience in local, regional, and global markets, we design and execute exhibitions that leave a lasting impression. Through meticulous attention to detail and customized strategies.

Process Flow

Design concepts

- Understand the client's brand, objectives, and target audience
- Propose creative exhibition booth design concepts

Design Development

- Finalize the booth layout, branding, and visual elements
- Prepare 3D drawings and technical specifications

Production & Logistics

- Manufacture booth components and promotional materials
- Coordinate transportation, installation, and on-site preparation
- Manage booth assembly and disassembly on-site
- Provide guidance and problem-solving

Performance Evaluation

- Collect feedback and analyze the exhibition's effectiveness
- Identify areas for improvement and provide recommendations

- Identify the target brand audience and the brand's market position

Brand Identity Design

- Create a distinctive visual identity, including the logo, color palette, and collateral
- Develop a consistent brand style guide and templates

Brand Implementation

- Deploy the new brand identity across all customer touchpoints
- Provide training and support for internal and external stakeholders

Brand Evolution

- Continuously monitor brand performance and collect customer feedback
- Adapt the brand as needed to maintain relevance and competitiveness

Case Study

Annual Report

Preparing the annual report for a government agency is sent to the higher authority.

- Logo design involves creating a visual representation of a brand or company through the use of typography, symbols, and colors, aimed at communicating its identity and values succinctly. Effective logos are memorable, versatile, and instantly recognizable, serving as a cornerstone of brand recognition and differentiation in the competitive market

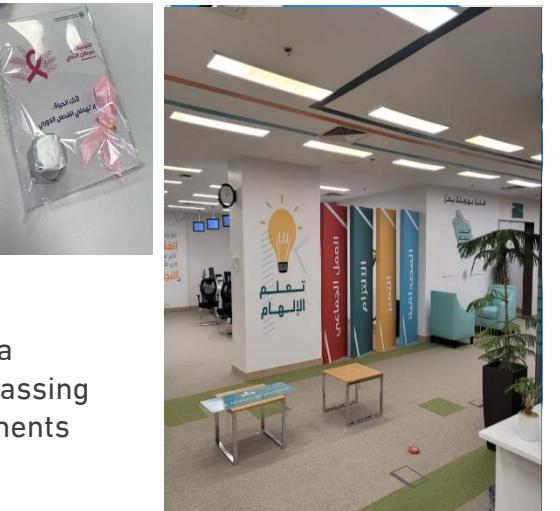

Branding Design

- It aims to differentiate and emotionally connect with consumers, fostering loyalty and recognition in a competitive market

Branding Design

- Branding is the process of creating a distinctive identity and perception for a product, service, or company, encompassing its values, personality, and visual elements

Productions & Audio-Visual Services

Productions & Audio-Visual

Our company offers unparalleled audiovisual production services. Through our unwavering pursuit of excellence, we leverage the latest technologies, including artificial intelligence, to redefine the realms of creativity and innovation. Our steadfast commitment is to surpass expectations and consistently deliver exceptional results that enhance customer satisfaction and enable their success. Trust us to inspire your vision with distinctive excellence and elevate your brand to new horizons.

Process Flow

Client Inquiry

- The client reaches out with a service request, and the team evaluates the project scope and requirements.

Service Scoping

- The team determines the appropriate services needed, such as videography, audio recording, or graphic design, and develops a project plan.

Content Creation

- The production team carries out the necessary activities to create the content, including filming, audio recording, and graphic design.

Quality Assurance

- The produced content undergoes thorough quality checks and any necessary refinements or revisions are made.

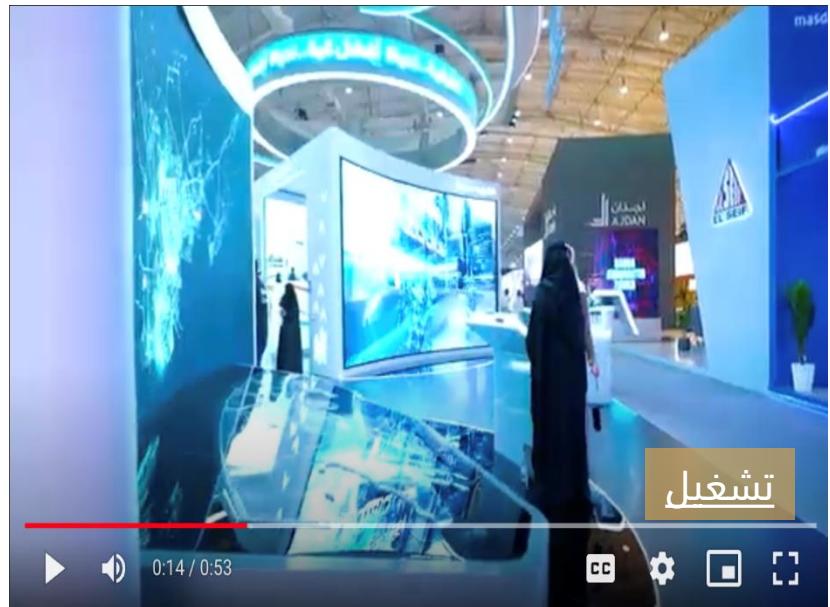

Delivery and Feedback

- The final content is delivered to the client, and the team gathers feedback for future improvements.
